TRA Prefecture #053
NAR Section #566

Syracuse Rocket Club – February 7, 2007 Minutes

Attendee's: Dave, Rich, Dennis, Elaine, George

Treasury Report (Dennis): We have \$691

Old Business: Update on **THE MOST** rocket exhibit and launch –

SRC to meet with Peter Plumley *exhibits project manager* on Saturday the 10th of February 2007 to lock down rocket project details. This Joint venture with NASA, Syracuse University, Cornell university, Lockheed Martin, Syracuse city School district, The MOST, and SRC will be building a rocket yet to be determined for launch at Geneseo NY Power on July 27-29 2007. We are recommending the Nike Smoke 11.5” diameter rocket manufactured by Performance Rocketry.

SRC's Job is to advise and oversee the construction due to the expertise in our club.

Saturday the 10th will be to lock in the rocket model to be built, expenses, payload, and as yet to be determined launch date. Also with such a big rocket the question of the day is.... Where will this monster be built?

2. The Pyro launch is a go. This Joint launch will be held on September 15 and 16th 2007 15th being an EX day, the 16th being a commercial motor day, and PYRO annual picnic. Be there or “Be Square”!!!

New Business: Regarding our membership drive.... George to perfect the letterhead of fliers. Also Elaine to put together a generic letter for distribution to inform Syracuse area organizations and citizens of our club. This will be sent to area organizations during the membership drive. This will be good timing because of the upcoming event with The Most.

Dave to contact: NAR for 315 area codes for NAR members. This will also be helpful for our mailers.

Rich to do the same for Tripoli members.

3. Voted to renew Tripoli membership.

8pm Adjournment.

NEXT MEETING.... MARCH 7TH 2007 AT WALT'S HOBBIE SHOP 7PM
